

DIGITAL CAMERA IN 2012

Description

The Smallest, but most powerful New Digital Camera in 2012! MCHD1 HDMI Multi-Mode microscope camera, size only 4x4x4.5cm, is a 1080p/720p HD scientific grade image processing project that has ultra superior color reproduction and super fast frame speed. Its functions can be independent utilized.

MCHD1 can be operated on HDMI screen independently or process image via USB2.0 without connecting with PC. The fast change responding speed and short responding time of the optical signal adopted by MCHD1 has been used in many areas like optical image processing fields.
